Peace Enterprises W.L.L

INTRODUCTION

Peace Enterprises W.L.L is a growing general maintenance firm started in the year 2003 to manage the properties of our real estate division efficiently with quality services besides growing slowly to take our place in this field of business.

Peace started with limited workforce gaining a reputation for quality, quick response, efficiency and customer satisfaction. It is through careful husbanding of this reputation, we expect to take our place in this field of business. We work closely with our suppliers, sub-agencies and consulting engineers to ensure the satisfaction of customer requirements.

We are mostly recommended by our Customers to their business network, family and friends who are in need of a trusted contractor. These recommendations and words of praise from our customers speak more than written words. We believe our advantage come from Quality service.

The name and business strength that has been earned by our organization today, is due to the professionally equipped and able staff, who have a varied experience of the Qatar market and good knowledge of serving the customers to their satisfaction. This is further enhanced by the innovative ideas of the management, who strive from time to time in creating awareness and keeping the company at par to the latest development of today's world.

Skilled & Trained Staff

Peace's qualified team of skilled Technicians works under the close supervision of experienced and competent Supervisors & Engineering staff. We understand the importance of training & motivation of our employees at all levels. We always ensure safe working environment for all our employees & their surroundings with regular health & safety meetings. The company carries insurance in respect of third party, workmen's compensation and professional indemnity certificates.

بيس انترپرائيزس ذ.م.م
Peace Enterprises W.L.L

Peace's staff is always in a presentable state of dress during working hours which not only ensures proper identification but also compliments our Clients premises. All our staff also wears clearly visible identification badges at all times whilst on the premises and sign in and sign out upon commencement & completion of work.

Presentable & Uniformed Staff

Easy Communication Channels

We have setup numerous channels of communication to facilitate our Clients for easy access to our staff and management either to report an emergency, forward feedback of our services or any other advices and suggestions. We always look for valued suggestions from our Customers. We strongly believe that these suggestions & feedback always help us in improving our services.

Valuable Recommendations

We always maintain service records, a copy of which is submitted to the Customer every six months with our recommendations for upgrading the existing systems and a guesstimate for keeping our Customers aware about any upcoming expenses. This helps the Clients to budget their expenses before hand and avoid any inconvenience and unpleasant surprises. Further, we also conduct energy audits to identify the area and installations of high energy consumption with our recommendations to upgrade or replace the units for better efficiency.

Whether it's small equipment like a water pump or a sophisticated control, performance falls off as equipment ages. Preventive maintenance is the way to stay ahead of the curve. Waiting until something goes wrong will dramatically reduce equipment life, increase energy costs and decrease occupant comfort and reliability. We therefore give prime importance to regular upkeep of the equipment to increase the life of the equipment and avoid unnecessary energy costs and discomfort.

Round the clock service

Peace offer round the clock emergency maintenance services backed by fully equipped mobile teams for prompt services at all times.

Water Tank Cleaning

In order to have a healthy life, every person should be responsible for getting the water tank cleaned after regular intervals. An unclean water tank is not only a place to harbor all the above-mentioned fatal elements, but it also can harbor dangerous bacteria like Legionella. An unclean water tank, reservoirs, and even cooling tanks have a high risk of spreading the diseases that are caused by such bacteria.

To ensure that you have a healthy is to have proper maintenance of the water-tank and hire professionals who know the job of how to clean the tank properly. Peace Enterprise is a water tank cleaning service in Qatar that has professional water tank cleaners with proper equipment, material and non-toxic, bio-degradable, safe chemicals. Cleaning and disinfecting water tanks on a regular basis is vital, mainly for people who reside in apartment complexes, works in commercial buildings, and even restaurants. It is the duty of the property manager or the owner of the water tank to keep the tank clean regularly and take all the preventive measures so that the water tank does not get contaminated.

تنظيف خزانات المياه

من أجل الحصول على حياة صحية ، يجب أن يكون كل شخص مسؤولاً عن تنظيف خزان المياه بعد فترات منتظمة. إن خزان الماء غير النظيف ليس فقط مكاناً لإيواء جميع العناصر المميتة المذكورة أعلاه ، ولكنه أيضاً يمكن أن يحتوي على بكتيريا خطيرة مثل الفيلقية. ينطوي خزان المياه غير النظيف والخزانات وحتى خزانات التبريد على مخاطر عالية لانتشار الأمراض التي تسببها هذه البكتيريا.

للتأكد من أنك تتمتع بصحة جيدة ، يجب أن يكون لديك صيانة مناسبة لخزان المياه وتوظيف متخصصين يعرفون وظيفة كيفية تنظيف الخزان بشكل صحيح. بيس إنتربرايس هي خدمة تنظيف خزانات المياه في قطر ولديها منظمات خزانات مياه احترافية مزودة بالمعدات المناسبة والمواد والمواد غير السامة والقابلة للتحلل الحيوي والأمنة. يعد تنظيف وتعقيم خزانات المياه على أساس منتظم أمراً حيوياً ، بشكل أساسي للأشخاص الذين يقيمون في مجمعات الشقق ، ويعملون في المباني التجارية ، وحتى المطاعم. من واجب مدير الممتلكات أو مالك خزان المياه الحفاظ على الخزان نظيفاً بانتظام واتخاذ جميع الإجراءات الوقائية حتى لا يتلوث خزان المياه.

Our Flagship Product : Water Tank Cooler

Water Cooling is the outward flow of heat preventing the overheating because of the environment heat and the water cooling system is the device that is used for cooling and maintaining the water temperature.

منتجنا الرئيسي : مبرد خزان المياه

تبريد الماء هو التدفق الخارجي للحرارة مما يمنع السخونة الزائدة بسبب حرارة البيئة ونظام تبريد المياه هو الجهاز الذي يستخدم للتبريد والحفاظ على درجة حرارة الماء.

There is a continuous flow of fresh air into the cooler tank which gradually affects the temperature and circulation of air inside the tank, eventually decreasing the water temperature and settle down the cool water at the bottom of the tank and just opposite to this the hot water will go up. All the hot air and vapours rise to its water level and pass out through the selected outlet of a cooling unit.

هناك تدفق مستمر للهواء النقي في خزان المبرد الذي يؤثر تدريجي آ على درجة حرارة ودوران الهواء داخل الخزان، مما يؤدي في النهاية إلى خفض درجة حرارة الماء واستقرار الماء البارد في قاع الخزان وعكس ذلك الماء الساخن سترتفع . ترتفع جميع الأبخرة والهواء الساخن إلى مستوى الماء وتنتقل عبر المخرج المحدد لوحدة التبريد.

Why Choose Our Water Tank Cooler

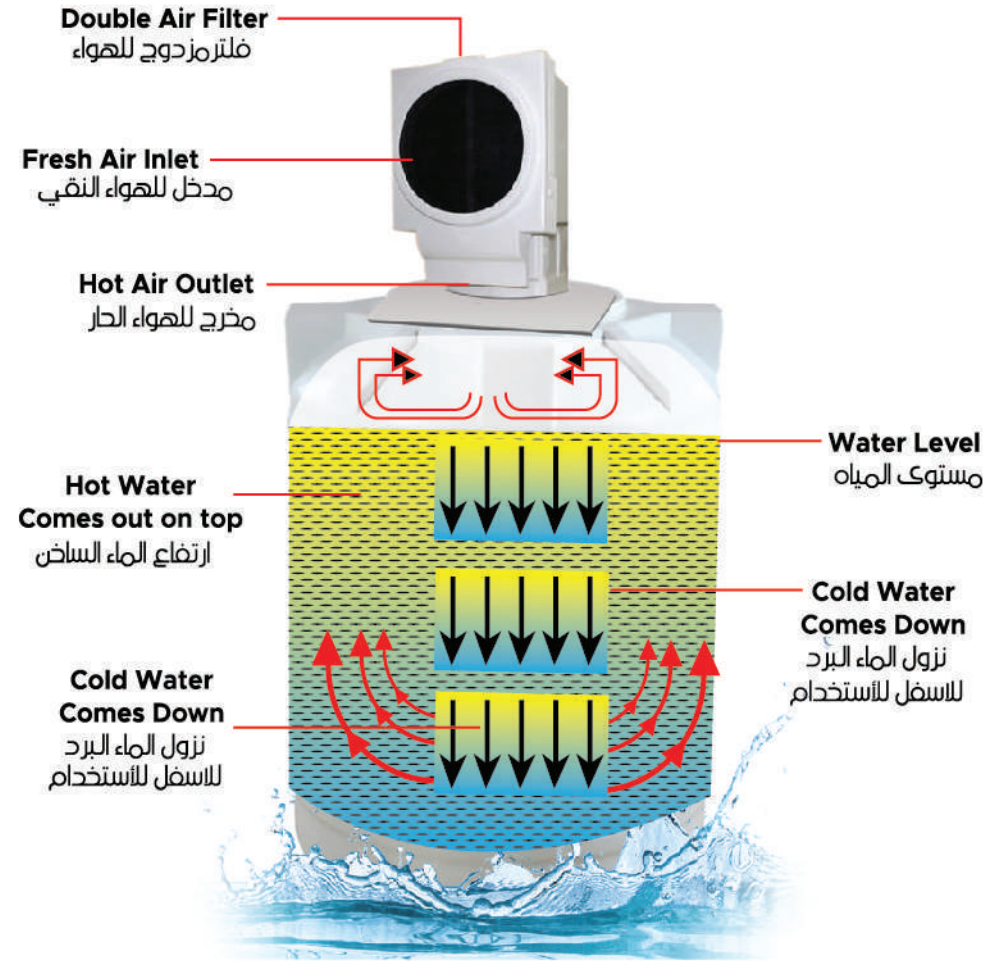

When the intense heat and rising temperature make it difficult to use water for anything, our water cooling system and devices are a perfect fit for summer use. Our wide range of different sizes and capabilities of the water tank cooler makes us one of the best water cooling system providers in Qatar.

منتجنا الرئيسي : مبرد خزان المياه

لماذا تختار مبرد خزان المياه لدينا؟ عندما تجعل الحرارة الشديدة ودرجة الحرارة المرتفعة من الصعب استخدام الماء لأي شيء ، فإن نظام التبريد بالمياه والأجهزة الخاصة بنا مناسبة تمامًا للاستخدام الصيفي لدينا مجموعة واسعة من الأحجام والقدرات المختلفة لمبرد خزان المياه يجعلنا أحد أفضل مزودي أنظمة تبريد المياه في قطر.
